

**World Gaming Expo on a countdown to a very successful first edition of the Gaming trade-show in Monaco.**

**The founder and CEO is looking optimistically on the opening day at the Grimaldi forum and announcing future yearly event of global importance.**

The decision to organize a gaming trade show in Monaco is proving to be a fruitful one. World Gaming Expo team has managed to attract many important names in the gaming industry like: EGT, BETCONSTRUCT, GREENTUBE, ADVANSYS, PATIR, MONACAIR and an ever better sounding collection in visitor registrations.

Comparing to other world shows that today represent an important milestone on every gaming company calendar, this optimistic beginning looks very promising. “We have to keep in mind it is only the first edition and we will continue growing and always doing our best for all our partners and clients” says Mr. Gamba.

The highlight of the social events accompanying WGE is an “Opening Ceremony Gala” scheduled for December 6 at Café de Paris, where entrance will be granted only if you present a special metal-card invitation reserved for the selected members of the gaming industry, celebrities and local industry players.

Guest of honour title for 2017 went to Patrik Antonius, the biggest winner in the history of the online poker. His presence will be appreciated by gaming providers, a long list of fans but mostly by any young lady who likes to gaze at a gorgeous man. Many celebrities will be present at the expo during all 3 days, available for interviews, photo opportunity and autographs.

Conferences and several renamed conference speakers are also raising a dust of curiosity so anyone who would still like to attend but did not secure the conference badge is invited to hurry up before the doors close.

Badges can be requested on the WGE official website:

[www.world-gaming-expo.com](http://www.world-gaming-expo.com).

The main conference topics that will be covered during a 3-day show illustrate how gaming industry keeps up with radical and fast changes due to constant technology and software inventions. The gaming trends keep changing and new generations are driving the demand.

Gaming industry marketing in digital world will cover all the important SMM, SEO and content/graphic management. The blockchain technology as the driver for the next generation of casinos, marketing and responsible gaming symbiosis, safety and gaming globalization, understanding new generation needs are just some of the topics that will be presented by well-known and respected specialists like Valery Bollier, Arjan Korstjens, Filipe Zago, Aleksandra Fetisova, Fili Weise, Paolo di Feo and many others.
