The exhibition
« Alberto Giacometti, a retrospective.
***Marvellous reality* »**
will take place from July 3 to August 29, 2021

In summer 2021, the Grimaldi Forum will present for the first time in Monaco a big retrospective of the work of the sculptor and painter Alberto Giacometti, the most important event of these last few years.

Organised in association with the Giacometti Foundation, which agreed to an exceptional loan, this exhibition will give prominence to all the periods of the artist's life and all the mediums which he used throughout his career.

It will offer a complete panorama of Alberto Giacometti's practice, from the early works to the Surrealist period, from the return to figuration and the creation of the icons of the post-war period.

Gathering more than 230 works, among them many masterpieces, and supplemented with photographs and films, this retrospective will offer the public wonderful discoveries within a visit orchestrated by the curator Émilie Bouvard, director of Collections and Scientific Programme at the Giacometti Foundation.
