**The wearing of a mask is obligatory.**  
Staff and service providers are equipped with visors in addition to masks.

### HYGIAPHONE PLEXIGLASS PROTECTOR

All fixed desks equipped at: Main Entrance, Ticket Office, Staff entrance.

Organisers are provided with 18 equipped mobile reception desks.

### HYDROALCOHOLIC GEL DISPENSERS

Self-service hydroalcoholic gel dispensers available at all strategic points.

### AUDITORIUMS & MEETING ROOMS

Seating placement in rooms: participants will occupy one seat out of every two staggered between rows.

## EMERGENCY

### GFM STAFF

GFM security agents trained in Covid19 protocol in collaboration with the Health Authorities. Covid19 GFM referent during the event.

Their list of duties includes the barrier measures necessary for each activity carried out by GFM staff.

### DEDICATED COVID19 SPACE

In addition to the permanent infirmary, level-0 space made available for isolating suspect cases prior to their being taken into the care of the Monaco Fire Department.

## CLEANING | DISINFECTION | AIR-CONDITIONING Viriducial cleaning and disinfection to EN 14476 standards

### COMMON AREAS AND WC'S

Daily cleaning of shared self-service equipment (dispensers, drinking fountains, etc.).

Continuous cleaning and disinfection of toilets, hand-dryers and wastewater tanks by a rotation of dedicated staff with attendance sheets on display.

## CLEANING | DISINFECTION | AIR-CONDITIONING Viriducial cleaning and disinfection to EN 14476 standards

### AUDITORIUMS MEETING ROOMS AND ORGANISER OFFICES

Thorough and daily cleaning of rooms and furniture including doors, handles, railings, windows, etc.

### CONGRESSES STANDS

Thorough and daily cleaning of aisles and common areas.

### DISINFECTION WIPES

Freely available at main entrances.

Made available to hostesses for regular cleaning of reception desks.

### AUDIOVISUAL MATERIAL

After each session, cleaning and disinfection of keyboards, mice, remote controls and pointers carried out by GFM staff.

Microphones are equipped with disposable windscreens and are allocated on the basis of one microphone per person.

### UNIFORMS

Daily cleaning and disinfection of the uniforms and outfits of security agents and hostesses.

### AIR-CONDITIONING

The spaces of GFM are air-conditioned with fresh air being taken from the outside and then filtered. The air is recovered at the ceiling area and then sent to a central treatment centre. The air-conditioning of each area is independent, so there is no exchange of air from one space to another.

## FLOWS | SIGNALÉTIQUE

### FLOWS FACILITIES LOCATIONS

Each operation is studied by the Covid19 GFM referent and the Health Authorities depending on the type of event and the number of people received.

### SOCIAL DISTANCING LINES

Organisation of queues in front of WC areas, freight elevators, fixed reception desks.

### DISPLAY OF MAX CAPACITY

Displayed in freight elevators and in the WC areas.

### REMINDER OF BEHAVIOUR AT BARRIERS

Displayed on self-service dispensers of hydroalcoholic gel, on freight elevators, on dynamic signage screens during assembly-disassembly and in WC areas.
